Letter of Recommendation
Date: May 2025

To Whom It May Concern,

I am pleased to write this letter of recommendation for Ms. Marwa Habibi, a dedicated and talented individual who successfully participated in the *Solar Energy Training Program* organized by Sustainers Global Initiative.

As the Executive Director of Sustainers and mentor for the *Cost-Benefit Analysis of Residential Solar Energy* module, I had the privilege of closely working with Ms. Habibi throughout the training. During this time, I was consistently impressed by her academic excellence, leadership abilities, and her unwavering commitment to creating positive change in her community.

Marwa demonstrated a strong grasp of renewable energy concepts, coupled with an outstanding ability to apply theoretical knowledge in practical contexts. Her analytical thinking, technical acumen, and innovative mindset enabled her to propose meaningful, community-based solar energy solutions—particularly for underserved areas. Her active engagement and problem-solving orientation significantly enriched the outcomes of the program.

In addition to her academic strengths, Marwa is a natural leader. She is solution-driven, proactive, and possesses a deep sense of responsibility toward social and environmental challenges. Her ability to inspire others and work collaboratively further highlights her leadership potential and civic-mindedness.

Based on her performance during the training program and her potential to make a lasting impact in the field of renewable energy and beyond, I strongly recommend Ms. Habibi for any academic, professional, or development opportunity. I am confident she will bring the same level of excellence, integrity, and innovation to any endeavor she chooses to pursue.

Should you require further information, please do not hesitate to contact me.

Sincerely,
Rohina Ghafori
